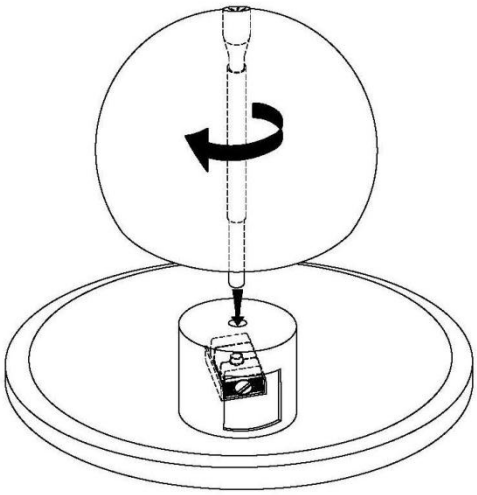
PS6616AG
22IN DIA BALL FOUNTAIN-AGED GRANITE
ASSEMBLY INSTRUCTION

Warning! Do not plug the pump prior to assembly. Once assembled fill with water before plugging in adaptor.

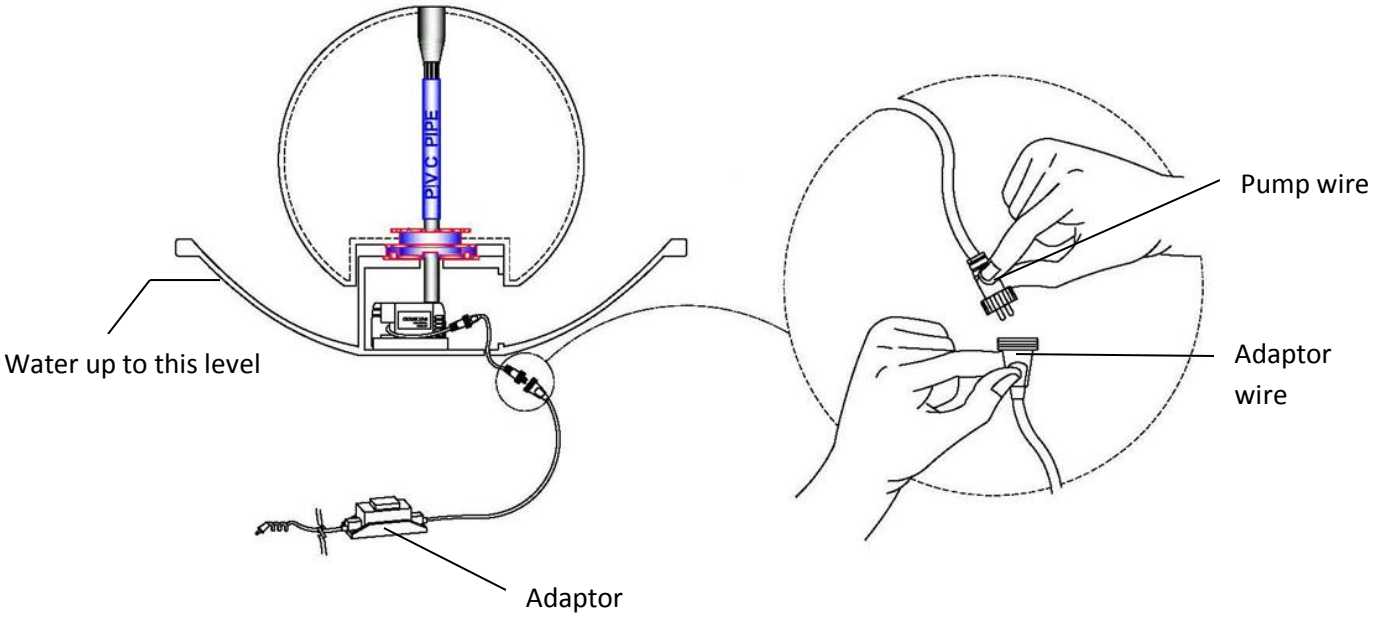
Step 1

Insert tube on ball through hole on base. Turn ball clockwise to lock.



Step 2

Connect pump wire to adaptor wire. Fill with water up to level shown below before plugging in adaptor.



WARNINGS AND CAUTIONS

WARNING

- To reduce risk of Electric shock, connect only to a properly grounded outlet.
- Do not exceed voltage shown on pump.
- To reduce risk of Electric shock, never submerge transformer under water.

CAUTION

- Always disconnect from Electrical outlet before handling the pump.
- Pump must be completely submerged for proper operation and cooling.
